Analysis of the RAB recommendations and the decisions made on these recommendations.

In an effort to obtain input for the development of RCHA 2020-2025 goals, focus groups was conducted PHA wide with residents and RAB members. RCHA conducted meetings with stakeholders (a community partnership & a management Team meeting) to analysis the findings of the focus groups and to identity common leading concerns. The stakeholders used a problem importance worksheet to rate concerns.

The following three criteria were used in rating the concerns: (1) Magnitude: How many persons does the problem affect, either actually or potentially? (2) Seriousness of the Consequences and (3) Feasibility of Correcting: Is the problem amenable to interventions.

Some common concerns were: the application process, better drop boxes, safety, recreational activities for youth and seniors, full time staffing at complexes, bus shelters, resources & trainings for residents, rent increases after job attainment, a schedule for painting apartments and changing out appliances; and cosmetic modifications.

RCHA felt majority of the concerns received from the tenants was feasible to correct over the next 5 years and could be done through capital funds, community partnership and staff development. The goals outlined in this plan provides the strategies RCHA will use to meet the needs of our residents and potential tenants.
